Dear Early Education Community:

The Early Learning Coalition has partnered with Save the Children, an international aid organization that provides relief and support to children and their families during conflicts or natural disasters, like Hurricane Irma. Save the Children has committed to supporting our communities in Miami-Dade and Monroe, by offering an evidence-based curriculum, *Journey of Hope*, at your location to your children and teachers at no cost.

*Journey of Hope* is designed to help build resiliency among children, youth and their caregivers, while helping them understand their feelings. The curriculum is designed to support teachers during disaster recovery and provide effective ways of addressing children's emotional needs related to their traumatic experiences.

If you would like the teachers and children in your program to receive *Journey of Hope*, please click on the link below.

Act now! Only a select group of providers will be able to take advantage of this great opportunity!
