Miami-Dade/Monroe

Board of Directors Meeting
December 2, 2019
A strategic roadmap for our children to Thrive by 5
Third grade reading proficiency and kindergarten readiness have become key benchmarks for assessing a child’s abilities to be successful in the early grades and do well in 4th grade and beyond.

Approximately 1 in 3 children arrive at kindergarten without the basic skills needed for success.

Early language and development lags have been documented as early as 18 months and by age two, low-income children are already behind their peers in listening, counting and other skills essential to literacy.
Miami-Dade has a higher prevalence of young children with special health care needs than the state or nation.

Children with special health care needs (CSHCN) are those who have or are at increased risk for a chronic physical, developmental, behavioral or emotional condition and who also require health and related services of a type or amount beyond that required by children generally.” McPherson, Arango, Fox, et al., 1998
Thrive by 5 Strategies

- Early Intervention
- Early Learning Quality Improvement System
- Parenting & Home Visiting Services
- Early Literacy Supports
- Early Childhood Health Services
Early Intervention
Short Term Early Intervention
Autism Evaluation Services
Early Childhood Community-Research Demonstration Projects

Comprehensive Vision Program
Located in a low-income census tract; and

Serve at least 30% children receiving a school readiness subsidy, and

Serve infants and toddlers.
