

Introducing HOPE FLORIDA A Pathway to Prosperity

October 2021

Hope Florida – A Pathway to Prosperity.

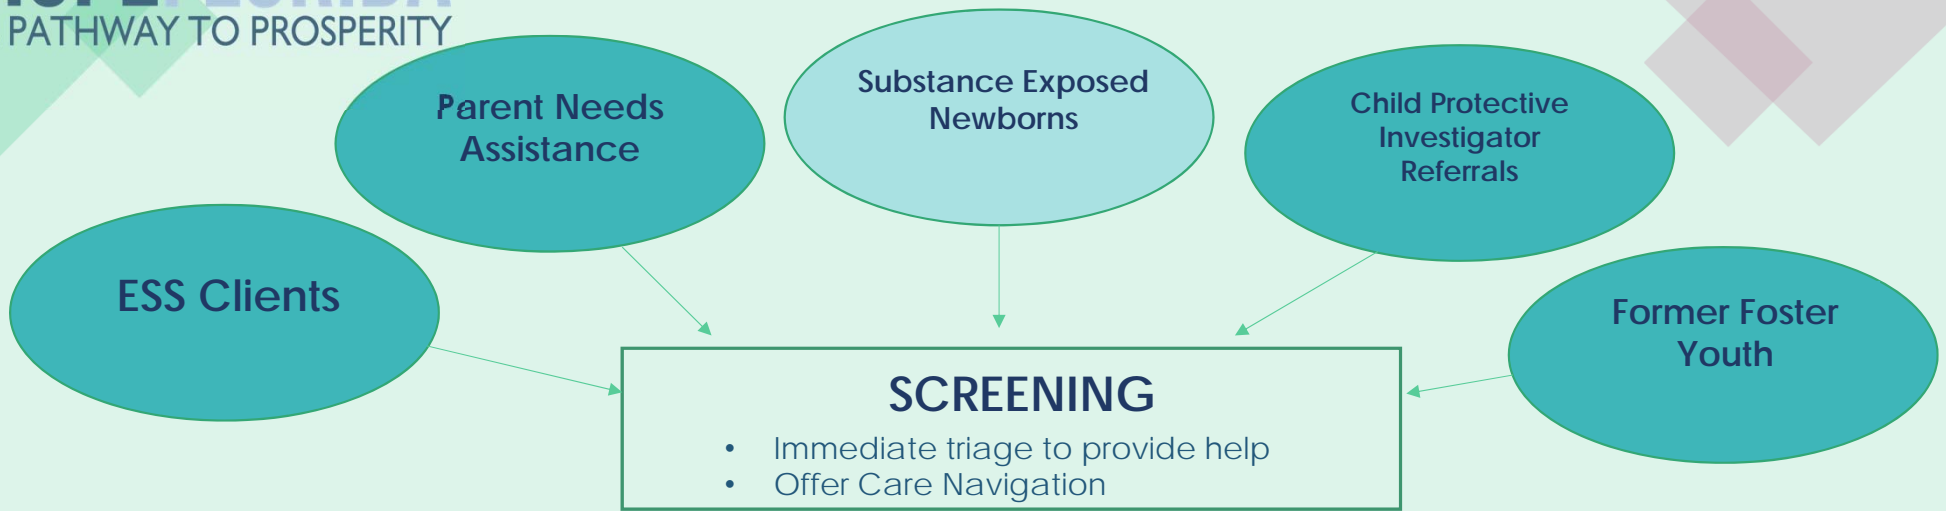

This major new initiative has been spearheaded by First Lady DeSantis and implemented by the Florida Department of Children and Families (DCF), utilizing 'Care Navigators' to guide Floridians on an individualized path to prosperity by focusing on community collaboration between the private sector, faith-based community, nonprofits and government entities to break down traditional community silos, to maximize resources and uncover opportunities.

What is Hope Florida?

Vision:

Transform agency
from crisis response
to person-centered
prevention

- Hope Florida is “the deliberate organization of [client] care Activities between two or more participants involved in a [client’s] Care to facilitate the appropriate delivery ofservices”.
- The goal of Hope Florida is to assist individuals to overcome identified barriers that prevent them from seeking and maintaining their version of economic self-sufficiency.
- The expanded Hope Florida model integrates care across other program areas, such as **Parent Needs Assistance (PNA)**, and **Child Protective Investigator (CPI)** cases, and increases the number of people who will be making and receiving referrals.
