3.1.5 School Readiness Funded Provider License Policy

Date approved: 12/06/2010

Purpose: To establish a standardized policy statement requiring licenses for providers in Miami-Dade County who participate in the School Readiness program and receive funding from the Early Learning Coalition of Miami-Dade/Monroe (the “Coalition”).

Policy Statement: With an effective date of January 1, 2011 (except for existing providers, who shall be required to comply by July 1, 2011), this policy statement sets the policy in Miami-Dade County for Providers applying to contract with the Coalition to provide School Readiness funded services. All Providers must be licensed by the Department of Children & Families (“DCF”) in order to be eligible to enter into School Readiness contracts with the Coalition, except for: (i) Religiously-exempt faith-based organizations under ss. 402.316, F.S. (“Religiously-Exempt, Faith-Based Organizations”); (ii) Miami-Dade County School System programs, provided the programs are operated and staffed directly by the schools and meet all other requirements under ss. 402.3025, F.S. (“Miami-Dade County School System Programs”); and (iii) Informal providers, defined as unregulated child care arranged by the child’s parent, either in the child’s home or elsewhere, provided by relatives, friends, or neighbors (“Informal Providers”). Providers must satisfy eligibility requirements as set forth in the Provider Agreement for School Readiness Funded Services.

Rationale: To ensure a system of accountability for the health and safety of children and the accountability and management of tax payer funded services.

Procedures: Effective January 1, 2011 (except for existing providers, who shall be required to comply by July 1, 2011), the Coalition will accept School Readiness Provider Agreement contracts only from providers who are licensed by DCF. This requirement applies to after-school programs and school-age programs that are not operated and staffed directly by the school system; child enrichment providers; and summer camps. This requirement shall not apply to (i) Religiously-Exempt Faith-Based Organizations; (ii) Miami-Dade County School System Programs; and (iii) Informal Providers.

Unlicensed providers submitting a contract will have the contract returned to them unprocessed and notified in writing of the Coalition’s decision. The provider will also receive notice of the right to appeal the decision. Appeals will be governed by the Coalition’s Grievance Policy. If the Provider fails to appeal the action within 30 business days from receiving written notification of the Coalition’s actions, the action becomes final.

Once the provider receives a valid license from DCF, it is eligible to reapply to provide School Readiness Funded Services. Coalition funds will not be used to reimburse any unlicensed provider who is not exempt pursuant to the terms set forth in this Policy Statement. Non-exempt unlicensed providers serving children do so at their own risk and expense.

A licensed provider whose license is revoked, suspended, or otherwise rendered invalid will not receive reimbursement for any period of time during which its license was revoked, suspended, or otherwise rendered invalid.

Parents of children enrolled with non-exempt unlicensed providers will be notified that the provider is not approved to provide school readiness services. Parents will be given Child Care Resource & Referral (CCR&R) assistance to locate an approved provider and will receive a maximum of thirty (30) business days to secure alternate child care arrangements. Any parent

who wishes to maintain their child in the identified program may continue with the unlicensed program at their own expense and without benefit of funding from the Coalition.

Providers are responsible for submitting updated licenses to the Coalition. The School Readiness staff will track the license expiration dates of approved providers, notify providers in writing of an expired license and request a copy of the new license. Providers who fail to submit an updated license will be suspended from the School Readiness program until they provide a valid license.

- Alan Eckstein called for the approval of the minutes from the December 3, 2010 Monroe County Advisory Committee Meeting.
 - Motion to approve the minutes by Lisa Barry-Toth; seconded by Sue Ellen Bennett.

IV. Coalition Update

Evelio C. Torres, CEO

- Evelio Torres provided the ELC Update.
 - The Governor's proposal included the full budget for School Readiness and VPK as well as additional dollars for VPK to pay for the anticipated increase in children, who will be coming into the VPK program next year.
 - The base student allocation under the Governor's proposal remains the same.
 - The legislature will set the final budget, but the coalition is currently in a good place.
 - The phone calls and letters to the legislators do count.
 - The Child Care Standards and Improvement Workgroup will be bringing their recommendations to the legislature this year:
 - Licensure for everyone that provides services to children.
 - Create one Office of Early Learning.
 - There is some discussion about moving the Agency for Workforce Innovation to the Department of Commerce and move all early learning programs under the Department of Education with one Office of Early Learning.
 - Evelio recently met with the County Administrator and Commissioner Murphy. If licensing is required of every provider in Monroe, including the family child care homes, it will have an implication which could add costs to municipal governments.
 - They may have ordinances that require them to monitor licensed providers or provide special permits, which will come at a cost to the municipalities.
 - The Board set a policy that takes affect July 1st In Miami-Dade, which requires every provider that accepts School Readiness payments to be licensed.
 - This will include the enrichment providers and the summer programs.

- The only exceptions are faith-based providers and public schools.
- A child safety policy will be put into place July 1st for Miami-Dade County. The board has recommended that providers who have one Class I or two Class II licensing violations will receive a letter from the ELC with intent to suspend.
 - The provider must file an appeal which will be heard by the Provider Services Committee.
 - Based on the circumstances, the committee will make a decision which could mean that the provider would be suspended for a one year period from the School Readiness program.
- The Board of Directors has started a strategic planning process for Miami-Dade and Monroe Counties.
 - Final recommendations will be made at the Board Retreat on February 26th.
 - Based on the strategic planning retreat with the Board of Directors, Monroe County will begin a very specific planning process which will deal with issues, such as licensing, afterschool programs and quality rating systems.
- Starting in April 2012, there is going to be a series of rotation of board member seats between Miami-Dade and Monroe County.
 - Positions scheduled to rotate to Monroe include: School Superintendent, County Commissioner, Community College President and Central Agency.

V. Child Care Provider Update	Sue Ellen Bennett, Provider Representative
--------------------------------------	---

- Sue Ellen Bennett gave the Child Care Provider Update.
 - The providers seem to have some of the same issues which includes enrollment.
 - Some are losing children due to families moving out of the area.
 - Some families are having a more difficult time paying for childcare than in the past.
 - Providers in the Upper keys are having an issue with the new finger print policy that went into affect August 1st.
 - Currently, the only choice for new hires is going to Key West or Coral Gables.
 - Kathy Snyder said Doug Blomberg is making arrangements with Wesley House office in Tavernier so providers can go to that location for finger printing.
 - Sue Ellen shared that one of the ways to get attention for childcare would be for the providers to go on a one day strike.
 - The business world would pay attention to how serious it is.
 - It would call attention to how little childcare providers are paid.
 - Evelio Torres said there is work being done on a proposal to create a brand new insurance pool or allow for joining an existing pool in order to provide low cost insurance for childcare providers and staff.
 - The proposal will be given further consideration as to whether it is feasible to find some dollars to pay for the beginning of an insurance pool for childcare provider staff.
 - This stems from a discussion that childcare teachers should be treated the same as public school teachers.

- We are running a system that is not equitable, because the teachers in the childcare centers are not receiving the same benefits as the public school teachers.
- Gina Cortez-Suarez commented that a statement could be made by counting the number of children being cared for in centers and how many people who are employed that it affects.
 - She also shared that the conversation at the state level with the new governor is all about jobs; therefore, in this business of early care and education we should determine how many people have jobs because of us.
- Shaleen Fagundo suggested a campaign along the lines of “100 parents working; 50 children receiving loving care” to emphasize that while parents are working, children are getting care and education because of School Readiness funding and VPK funding.

VI. Registered FCCH Licensing Update

Lisa Barry-Toth, DCF Child Care Licensing

- Lisa Barry-Toth gave an update on the status of the registered family child care homes.
 - She reported that there was very positive feedback at the home provider monthly meeting regarding registered home providers transitioning to licensed providers.
 - Some concerns were brought up regarding the start up fees and monthly operating costs for a licensed home compared to a registered home.
 - The majority of the home providers are renters, and there are concerns about the landlord allowing them to continue operating a business out of their home.
 - Lisa expressed a concern about the timeframe to become licensed should it become mandated.
 - She explained that she is the only counselor that covers the county, and all of her files are approved out of Miami which requires more time.
 - There is also a question as to how the city and county ordinances will come into play with licensed homes and will the mandate include all unlicensed providers.
 - Alan Eckstein said it looks very positive, but it sounds like there will be issues that need to be dealt with along the way.
 - Lisa said she feels all of the issues will never be resolved so it is going to need to be a yes or a no and then we should move forward.
 - Lisa explained that currently Monroe County is not mandated to be licensed so some providers can choose to maintain their registered home and take private pay.
 - Lisa stated that there are a total of forty-one registered homes in Monroe County.
 - Out of the forty-one, thirty-four are contracted School Readiness providers.
 - Out of the thirty-four contracted, twenty-six have School Readiness children enrolled.
 - Lisa feels that there are at least five homes who would not qualify to be licensed.

VII. Wesley House School Readiness/VPK Update

**Val Taylor, School Readiness/
VPK Coordinator**

- Val Taylor provided the WHFS Update.

- For the month of January, there were 747 school-readiness funded children being served in Monroe County.
 - 421 - Lower Keys
 - 139 - Middle Keys
 - 187 - Upper Keys
 - By funding category, 616 were funded through the low income/working poor families.
 - 119 were protective service children at-risk.
 - Nine families are receiving assistance through TANF.
 - Three families are in transitional childcare.
 - Ten are enrolled in the teen parent program.
 - Sixteen children are enrolled in the CCEP program.
 - Applications are being accepted, because there is no wait list for School Readiness.
- Evelio wanted to know why the number of at-risk children as a percentage of a population being served by School Readiness was so much higher in Monroe County than Miami-Dade.
 - Doug Blomberg stated that the numbers coming in from Community Based Care and DCF have remained constant for the past six months.
 - Evelio expressed concern that the number of referrals have dropped in Miami-Dade.
- 479 VPK certificates have been issued.
 - January recorded 399 VPK children enrolled and 437 served year-to-date.
 - Total capacity is 563.

- Healthy Start is also looking for volunteers to be trained and certified as child safety seat technicians.

X. Provider Recoupment

Jackye Russell, Director of School Readiness

- Jackye Russell gave the Provider Recoupment update.
 - There are some providers, primarily after-school programs, which were serving children who were younger than school age.
 - School-age children are defined as kindergarten and older.
 - Some providers were serving children who were not in kindergarten, but rather four years of age.
 - Many were VPK children who went to the after-school program after the VPK hours ended.
 - The issue for the providers is that if they are not licensed, they cannot take care of children who are younger than school age.
 - It is believed that this is a carryover from when the VPK program began, because in Miami-Dade the school system is not required to be licensed, and they are allowed to take care of the younger children who are in their VPK program.
 - What often happens is that the school system contracts their after-school programs out to different entities. It was these entities who were caring for these children and being paid School Readiness dollars to serve those children.
 - AWI has advised that those charges are not allowed and those funds would need to be recouped.
 - Miami-Dade is working with the providers to recoup the funds by setting up a payment plan so it does not create a burden for the providers.
 - There were not any providers from Monroe County in this situation, but it is important to remember that a provider is required to be licensed or license exempt if they will be serving children younger than kindergarten age.
 - Gina Cortez-Suarez asked if the school system was the original provider, and they contracted out the services, then who is at fault.
 - Evelio Torres responded that the provider assumed the exemption for the school system would apply to them as well. The law states that the services must be provided by school personnel. If the decision is made to contract out, the exemption is lost.
 - Evelio said that AWI expects 100% recoupment going back to July 1st.
 - Jackye Russell said Miami-Dade has instituted a coding system to make sure this does not happen going forward.
 - The ELC is requiring the providers in Miami-Dade to be licensed by July 1st, which will prevent this from happening in the future.
 - Gina Cortez-Suarez asked what would happen if a provider says that they cannot pay.
 - Evelio explained that the providers are still being paid, but some dollars are being withheld over a period of six to twelve months.
 - The state was willing to write it off if the providers became licensed to provide care. DCF was willing to put them on the fast track for licensure as well, but the providers have not been interested for some legitimate reasons.

**XI. Public Comment****Gina Cortes- Suarez, Ed.D.
Alan Eckstein, Esq.**

- Alan Eckstein announced that he will be providing an advocacy training at the director's meeting on March 12th at the San Pablo Church hall in Marathon.
 - There is a Children's Movement meeting on February 18th at Wesley House in Key West.
 - Evelio Torres commented that it is believed the fact that the Governor included the entire budget in his proposal has something to do with the Children's Movement of Florida.
- Doug Blomberg announced the Valentine's Day Gala at the Curry Mansion, which is Wesley House's signature event.
- Alison Heymann announced that Key West Preschool Co-op will be having their annual Spring Fair on April 9th.

Alan Eckstein, Esq.**

- Alan Eckstein called to adjourn the meeting.
 - Motion to adjourn the meeting by Doug Blomberg.

65C-22.008 School Age Child Care.

(1) Application for licensure. Application for a license or for renewal of a license to operate a school-age child care program must be made on CF-FSP Form 5272, March 2017, Application for a License to Operate a School-Age Child Care Facility, which is incorporated by reference. The license is issued in the name of the owner. The owner may be an individual, partnership, association, company or corporation, and the license must be posted in a conspicuous location where the school-age child care program is operating.

(3) Exemptions: A school-age child care program is not required to be licensed as long as the program complies with the minimum background screening requirements provided in Sections 402.305 and 402.3055, F.S., and if the program demonstrates that conditions of one of the following criteria outlined in paragraphs (a)-(e), below, are met. A lease for space or user agreement, with or without the endorsement of the program by the school/school district, does not meet the formal agreement requirement.

2. Serves only the school-age children attending the school during the school day. The program may provide services during any out-of-school time, including before school, after school, on teacher planning days, holidays, and intercessions that occur during the school district's academic calendar year.

(b) Instruction/Tutorial Programs. Some examples of these programs include, but are not limited to, tutoring; a computer class; a ballet class; a karate class; baseball instruction or other sport; the program cannot provide any service beyond the instructional and tutorial/academic activity; and:

1. Does not cater, serve or prepare meals. The program may choose to provide drinks and ready-to-eat snacks that are individually pre-packaged and do not require refrigeration.

2. Does not advertise or otherwise represent that the program has attributes of child care, as defined in Section 402.302(1), F.S.

3. Enrollment information shall clearly define the duration of the instructional sessions. Session time may not exceed two hours. If tutoring is provided in multiple academic areas, the total combined session times cannot exceed three hours per day.

4. Does not contract to deliver a school readiness program pursuant to Section 1002.88, F.S.

(c) Open Access Programs. The program is not designated as a Gold Seal Quality Care provider and meets all of the following criteria:

1. Operates/Serves children for less than four hours per day; however, the program may provide services during any out-of-school time, including before school, after school, on teacher planning days, holidays, and intercessions that occur during the school district's official academic calendar year.

2. Does not advertise or otherwise represent that the program is an afterschool child care program or that the program offers supervision.

3. Allows children to enter and leave the program at any time without permission, prior arrangements, or supervision, and the program does not assume responsibility for supervision.

4. Does not provide transportation, directly or through a contract or agreement with an outside entity, during the hours of operation for the purposes of field trips; and,

5. Does not serve or prepare any meals, except those provided through the USDA Afterschool Meal Program (AMP) administered by the Florida Department of Health, pursuant to Section 402.305(1)(c), F.S. Programs not participating in the AMP may choose to provide drinks and ready-to-eat snacks that are individually pre-packaged and do not require refrigeration.

6. Does not contract to deliver a school readiness program pursuant to Section 1002.88, F.S.

Dear Mr. Silie,

The Department received your revised licensure questionnaire describing the operation and activities of your proposed VPK and afterschool program located at 12600 NW 4th Ave, North Miami, FL 33168. Based on a review of the questionnaire and the additional information provided, it has been determined that your VPK program is exempt from licensure pursuant to 402.3025(2)(b) F.S:

402.3025(2)(c) Programs for children who are at least 3 years of age, but under 5 years of age, shall not be deemed to be child care and shall not be subject to the provisions of ss. ~~402.301-402.319~~ relating to child care facilities, provided the programs in the schools are operated and staffed directly by the schools, provided a majority of the children enrolled in the schools are 5 years of age or older, and provided there is compliance with the screening requirements for personnel pursuant to s. 402.305 or s. 402.3057.

Your afterschool program is **exempt from licensure** pursuant to 65C-22.008(2)(c)1, Florida Administrative Code because the program is serving **school aged children only**.

(c) An "After School Program" serving school-age children is not required to be licensed if the program meets one of the following criteria, and complies with the minimum background screening requirements provided in ss. 402.305 and 402.3055, Florida Statutes: The program is located on a public/nonpublic school site; and: 1. Is operated and staffed directly by that school or through a formal agreement, such as a contract, between the school (or school district, when the latter reserves authority for such agreements) and a provider which names the school/school district as the responsible party for the operation of the program. A lease for space or user agreement, with or without the endorsement of the program by the school/school district, does not meet the formal agreement requirement. 2. Serves only the school-age children attending the school during the school day. The program may provide services during any out-of-school time, including before school, after school, on teacher planning days, holidays, and intercessions that occur during the school district's academic calendar year. 3. Follows the standards set forth by the Florida Building Code State Requirements for Public Educational Facilities pursuant to Section 402.305(5), F.S., programs operated in public school facilities, regardless of the operator.

Subject: **Contract Renewals and the New Federal Regulations**

Good morning,

We've understand there's been some uncertainty about renewing contracts with providers who will not receive a DCF inspection before July 1, 2017.

Existing license-exempt school readiness providers (current providers who have signed a school readiness contract on or before December 31st, 2016) who have not received a School Readiness Health and Safety inspection by DCF or the local licensing authority are eligible providers for FY 2017-2018 (barring any other disqualification, of course).

*We are hoping to have most of the license-exempt school readiness providers inspected before July 1st, but for the ones who have not been inspected, coalitions may still renew contracts with those providers. **Those license-exempt school readiness providers not inspected prior to July 1st will be inspected by September 30th.***

Please let me know if you have any further questions.

Health and Safety Timeline

08/09/2018 On our last programmatic audit conducted by OEL, providers were deemed noncompliant with:

- 1) License exempt operating status by DCF (Based on Advisory policy)
- 2) Not having the health and safety inspection

OEL requested to identify other providers and initiate corrective action. 55 providers in total were identified. The list was provided to DCF and notices of Corrective Action Plan (CAP) were sent to these providers. DCF is working on conducting these inspections as soon as possible, however some provider are reluctant to sign a CAP due to not been notified, however our communications department found these communication.

12/16/2016 ELC started the e-mail communications regarding the Health and Safety Rule to all providers and the following subsequent communication were sent after:

1. December 16, 2016 Provider Newsletter
2. June 22, 2017 Email Blast
